I'm a young, fast learner, hard-working developer. I'm driven by the passion to create awesome applications. I enjoy working in a team, debating ideas and finding the best solution to solve arising problems. I'm interested in Buddhism ideology and I admire Steve Jobs's dedication for great products.

Experience

iOS Developer

Nordlogic / Full Time / September 2011 - Present

My current position is iOS Developer and I'm working with Objective-C, Cocoa Touch, UIKit and Xcode on a daily basis. I've worked on various projects for iPhone and iPad and, at the moment, I'm experiencing with Mac OS development.

Web Developer

Nordlogic / Full Time / March 2011 - February 2013

As a web developer, I worked with Php, Zend 1.x, jQuery, Facebook API, Twitter Bootstrap and other web frameworks. My work implied doing both frontend and backend parts.

Freelancer

Part-time / 2009 - Present

As a freelancer, I've worked in different areas including branding/logo design, e-commerce, web and ios projects.
